

Nom: _____

Livret de mots A

Dear Parents,

This booklet contains 40 sight words and 40 phrases that students are working on being able to read. The 40 words are very common sight words that we see often in our beginner reading. The phrases are all made up using the 40 sight words from the first two pages. We will be practicing these words in class on a regular basis using flash cards, games (such as bingo), etc. and using them in our writing. Students should practice reading these words on a daily basis at home. When practicing with your child, please have him or her go through the words and phrases in random order, taking the time to look at each individual word completely (so that memorization of the list does not occur). Please keep this booklet in a prominent place. If it is easier for you, the booklet may "live" in the folder that comes to school every day. This way it will not become misplaced. As soon as your child can read the 40 words, please send the booklet to school with a note for me. Your child will read to me sometime that week. If you need help with pronunciation of any words please take a look at my website or ask me. Merci!
